# 3 TIPS FOR SAVING ON YOUR GROCERY BILL

1.) **Budget in advance.** Food is a necessity that has increased in cost significantly in the past few years. Making a realistic budget prior to going to the store can help you stick to a dollar amount that works for your family. Look at what you currently spend and try to cut where you can.

2.) **Meal plan.** Plan out your meals for the week in advance and only get the ingredients you need. This helps you avoid food waste and cuts out additional trips to the store during the week. Shopping your own pantry and fridge before going can also ensure you're not buying items you don't need!

3.) **Use Store Pick Up.** We understand this option isn't for everyone, but ordering your groceries online can actually help save you money. You can use your grocery list to only get the items that you need and avoid the temptation to buy extra items when you're at the store.
